No exams anymore. My PhD defence
will be on May 26 of 2026.

T-shirt size: XL

Shoe size: 46

I am **creative** because:

I don't just adapt to new concepts, I create them. Whenever I see an opportunity or a better approach, I can quickly shape the idea and visualize it in a clear, practical way. This helps others understand the direction immediately and makes it easier for a team to move forward together.

I show **responsibility** because:

You will always see me taking ownership and setting people up for success. I am not someone who grows despite others, I grow with others. I believe progress comes from collaboration, so I work hard to support the people around me and help us reach our goals as a team.

I am **accessible** by:

Being someone colleagues or clients can approach easily and rely on. I make sure people feel comfortable asking questions, sharing concerns, or seeking help. Whether it is at work, with friends, or outside at Willem II or anywhere else, I stay open, supportive, and dependable.

How I will help **shape tomorrow**: I want to help build a future where ideas connect people and make life better. By combining creativity, responsibility, and approachability, I aim to bring others along, strengthen teams, and turn shared visions into real, positive impact.
