I am **eager to learn** because:

I enjoy continuously challenging myself. I see each day as an opportunity to learn more about myself and my interests. After graduating from the Conservatory in Rotterdam in 2024, I started the Global Management of Social Issues program. Completely different at first glance, but it amazes me how useful the skills I gained have become in this new field of study.

I am **determined** because:

I feel at my best when I push myself to the limit. On a personal level, this shows in my weekly early-morning workouts and my focus on eating healthy food. Professionally, it shows in how I enjoy diving into complex tasks in which I have little experience.

I am a **team player** because:

I enjoy working toward a goal together and learning from my teammates. During my studies at the Conservatory, I founded a band with fellow musicians. In a band, everyone clearly has their own specialty, which you combine into a whole. This requires creative collaboration, and I think that's the most beautiful thing there is.

How I will help **shape the future**: By approaching each day and every person with enthusiasm and passion, you can achieve an incredible amount in a positive way. I hope to help others with that mindset.
