Vacation: Will be skiing in Austria from February 28 to March 7

Exam dates: No exams anymore.

Attends an AFAS course or knowledge session once per quarter.

T-shirt size: XL

Shoesize: 43

I demonstrate **Insight** by:

Identifying patterns, bottlenecks, and opportunities quickly. I look beyond the surface and connect information into a clear, logical whole. This enables me to assess situations accurately, make well-founded decisions, and guide others through the bigger picture. This insight helps me recognize issues early and structure processes more effectively.

I am **Resilient under Pressure** by:

Staying composed when the pressure rises and keeping a clear mind in situations where many things happen at once. I can prioritize rapidly, remain focused on what truly matters, and make decisions that move the situation forward. This steadiness allows others to rely on me, especially when the pace is high or circumstances shift unexpectedly.

I show **Initiative** by:

Spotting opportunities early and taking action the moment it's needed. I don't wait for someone else to pick it up. I take the first step. Whether it's improving a process, resolving a bottleneck, or supporting a colleague, I take the lead and ensure movement. This turns goals from intentions into tangible results.
