I am **great with communication** because:

Through the various part-time jobs and internships I've done, I've had a lot of diverse (customer) contact. These different experiences have taught me how to perfectly translate and convey a message to the person in front of me.

I am **creative** because:

I enjoy working on graphic design, such as social media content and other visual materials. I like contributing to a strong marketing strategy with this.

I am a **structured** because:

I always work in a very organized and planned manner, and I keep my calendar up to date. This helps me maintain an overview of everything that needs to be done and work efficiently.
