I am Insightful:

Because I can quickly analyze situations, see the bigger picture, and dare to give honest, strategic advice, even when it's not the easiest message to deliver. I am good at getting to the core of a problem, rather than just addressing the symptoms. This enables me to propose sustainable, long-term solutions.

I am Entrepreneurial:

Because I don't wait for things to happen; I take the initiative to see opportunities and to tackle or improve matters. I often see what needs to be done before it becomes a problem and enjoy making processes more efficient. In doing so, I also dare to take calculated risks to achieve a better outcome.

I am Responsible:

Because I take ownership of my tasks and agreements; you can count on me to deliver what I promise and to stand by my decisions. This also means I communicate proactively if things don't go as planned and immediately start looking for a solution. I feel personally invested in the quality of the final result.
